## SUMMARY

I am a second-year Software Engineering student at FPT University with a full scholarship, passionate about technology and problem-solving. I am currently building a strong foundation in software development and computer science principles. I am looking for opportunities to apply my skills, gain hands-on experience, and contribute to real-world projects.

---

## PROJECTS

### J-surviv Game - CodeFest 2025

May 2025 - July 2025
